Yep, it's cheap. Yep, it's kinda fun for a while. Yep, it's cute.in a weird way. Haven't seen hide nor hair of the Steam Leaderboards touted on the game's page. Seems to be only one, yes, a whole ONE puzzle to complete via words even though in the game there's a place to click where you can supposedly see your completed puzzles.as in plural. Two questions asked in the forums (whew, that's gotta be a record low for any game that's been out for 3 months) and neither with a shred of response from

developers. Can a developer answer in shreds? No idea. If there was a rating for MEH I'd choose that.. Yep, it's cheap. Yep, it's kinda fun for a while. Yep, it's cute.in a weird way.
